A low-angle photograph of the LA County General Hospital building, a large, light-colored stone structure with many windows. Two tall palm trees are visible, one on the left and one on the right, framing the building. The sky is a clear, bright blue.

PREVIOUS ENGAGEMENT *Enlace Previo*

Section 4: Community Uses Expressed During the Community Engagement Process

- Affordable housing, including deeply and extremely low income, and for families
- After-school Science, Technology, Engineering, Art, Mathematics center
- Arts/Culture spaces
- Commemorative spaces
- Community services spaces
- Health and social support services space
- Library
- Locally based retail
- Neighborhood grocery store
- Open space/community garden
- Preschool/Daycare
- Public and accessible transportation and parking
- Senior center
- Subsidized to low cost extended stay hotel to support patient families receiving care at Medical Center

Note: List is in alphabetical order

PREVIOUS ENGAGEMENT *Enlace Previo*

Centennial Partners participated in a series of Town Halls hosted by The Wellness Center from **January 30th until March 4th** which provided updates on the Los Angeles General Medical Center campus projects. A total of **7 meetings** were held throughout the Eastside area including Lincoln Heights, El Sereno, Boyle Heights, Chinatown, City Terrace and two at the LA General Medical Center.

Centennial participó en una serie de reuniones comunitarias organizadas por el Centro de Bienestar (Wellness Center) del 30 de enero al 4 de marzo, donde se brindaron actualizaciones sobre los proyectos del campus del Centro Médico General de Los Ángeles. Con siete reuniones en total en la zona este, incluyendo Lincoln Heights, El Sereno, Boyle Heights, Chinatown, City Terrace y dos en el Centro Médico General de Los Ángeles.

5 COMMUNITY KEY PRIORITIES *5 Prioridades Clave de la Comunidad*

<p>Campus Infrastructure <i>Infraestructura del Campus</i></p>	<p>Community Spaces <i>Espacios Comunitarios</i></p>	<p>Affordable Housing <i>Vivienda Asequible</i></p>	<p>Economic Anchors <i>Anclas Económicas</i></p>	<p>Supportive Services <i>Servicios de Apoyo</i></p>
<p>Adaptively reuses General Hospital and upgrades essential site infrastructure including utilities, parking, and accessibility combining historic value with modern sustainable and resilient practices.</p>	<p>Integrates green spaces, educational, cultural, and commemorative zones, prioritizing walkability and safety, enhancing livability, and promoting social interaction to create vibrant environments.</p>	<p>Provides housing units, with minimum 25% designated as affordable for lower-income households, addressing critical housing needs for families, seniors, and the workforce.</p>	<p>Creates jobs across project construction and future operations and incorporates commercial spaces and innovation zones that support local businesses and workforce training.</p>	<p>Advances the “Healthy Village” vision by integrating campus amenities and wrap-around services to address social determinants of health and to provide support in accessing redevelopment opportunities.</p>

PROCESS PILLARS *Pilares del Proceso*

Combination of funding sources and mechanisms to make projects possible
Combinación de fuentes y mecanismos de financiación para hacer posibles los proyectos

Conditions of campus buildings, infrastructure, and land that determine what can be built
Condiciones de los edificios, la infraestructura y el terreno del campus que determinan lo que se puede construir

Priorities, stressors, and aspirations identified and workshoped through continuous engagement
Prioridades, factores estresantes y aspiraciones identificados y trabajados en talleres a través de un compromiso continuo

Policies, regulations, and needs set forth by LA County to advance the *Healthy Village Vision*
Políticas, regulaciones y necesidades establecidas por el condado de Los Ángeles para promover la visión de Healthy Village

Dialogue on Challenges and Opportunities

Dialogue on Design Visioning

Dialogue on Permitting Process

Dialogue on Early Phases

Progress updates on studies, verify findings, and refine master plan framework requirements
Actualizaciones consistentes sobre el progreso de los estudios, verificar los hallazgos y perfeccionar los requisitos del marco del plan maestro.

Incorporate community feedback into projects
Solicitar e incorporar comentarios de la comunidad en proyectos

Consistent progress updates on environmental and entitlement process
Actualizaciones constantes del progreso sobre el proceso ambiental y de derechos.

Assess community experience with first projects to adjust future projects to needs
Evaluará la experiencia de la comunidad con los primeros proyectos para ajustar los proyectos futuros a las necesidades.

PHASE 1 KEY FINDINGS

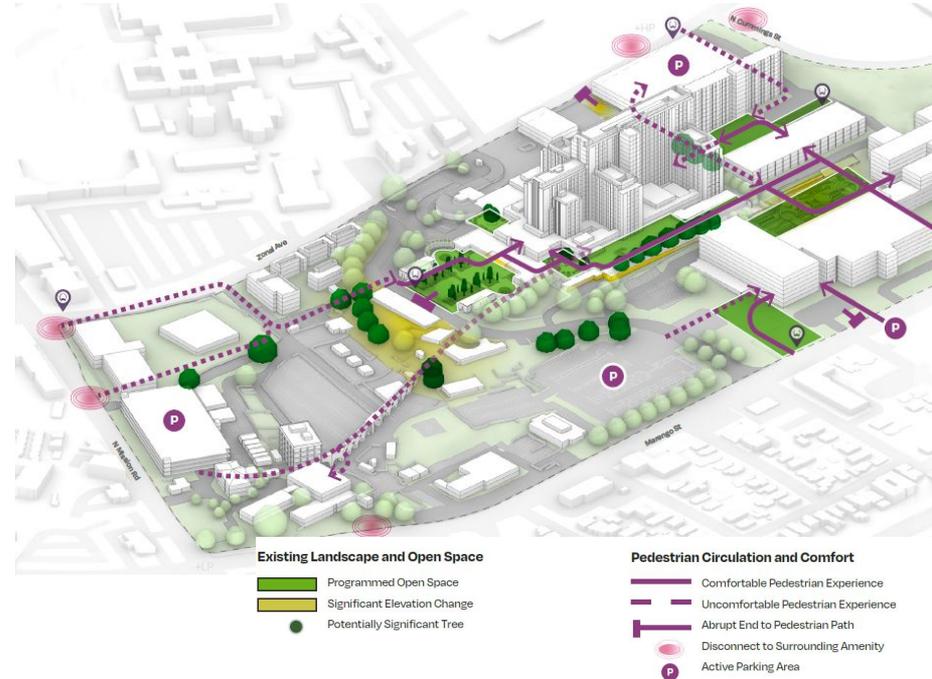

General Hospital is a non-traditional project. It first involves renovation to address the site-specific complexities and creativity to align with traditional financing methods.

El Hospital General no es un proyecto tradicional. Primero implica una renovación para abordar las complejidades específicas del sitio y creatividad para adaptarse a los métodos de financiación tradicionales.

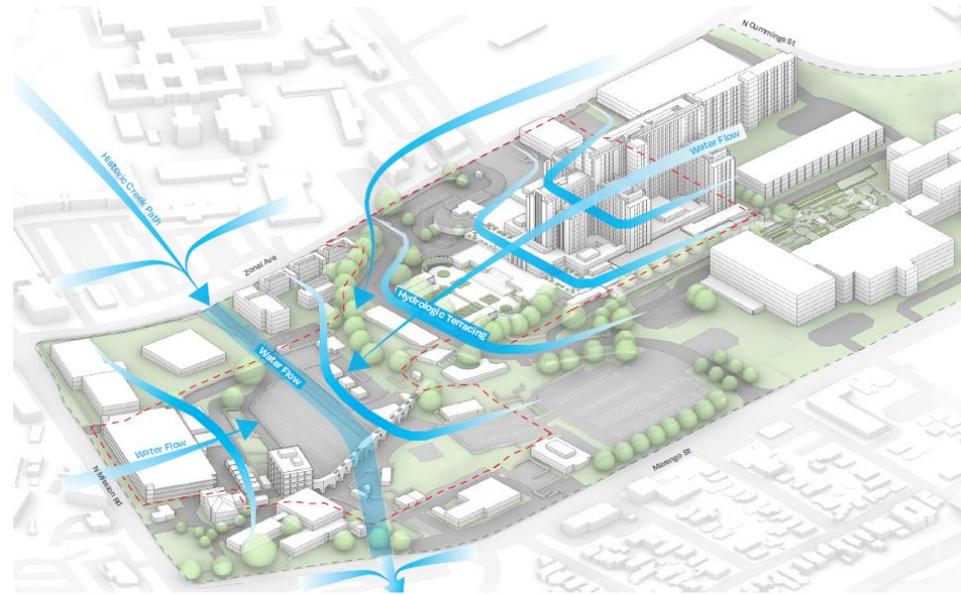

Overall Site Landscape and Open Space

- **Fragmented Green Spaces** – Open spaces are scattered and disconnected, serving limited uses due to inconsistent landscaping and amenities.
- **Limited Community Event Spaces and Activation** – Spaces like the General Hospital forecourt host occasional events (farmer's markets, movie screenings), but most are underutilized.
- **Vehicular Dominance** – Key areas prioritize drop-off zones, limiting pedestrian-friendly gathering spaces.

Overall Site Ecological Attributes

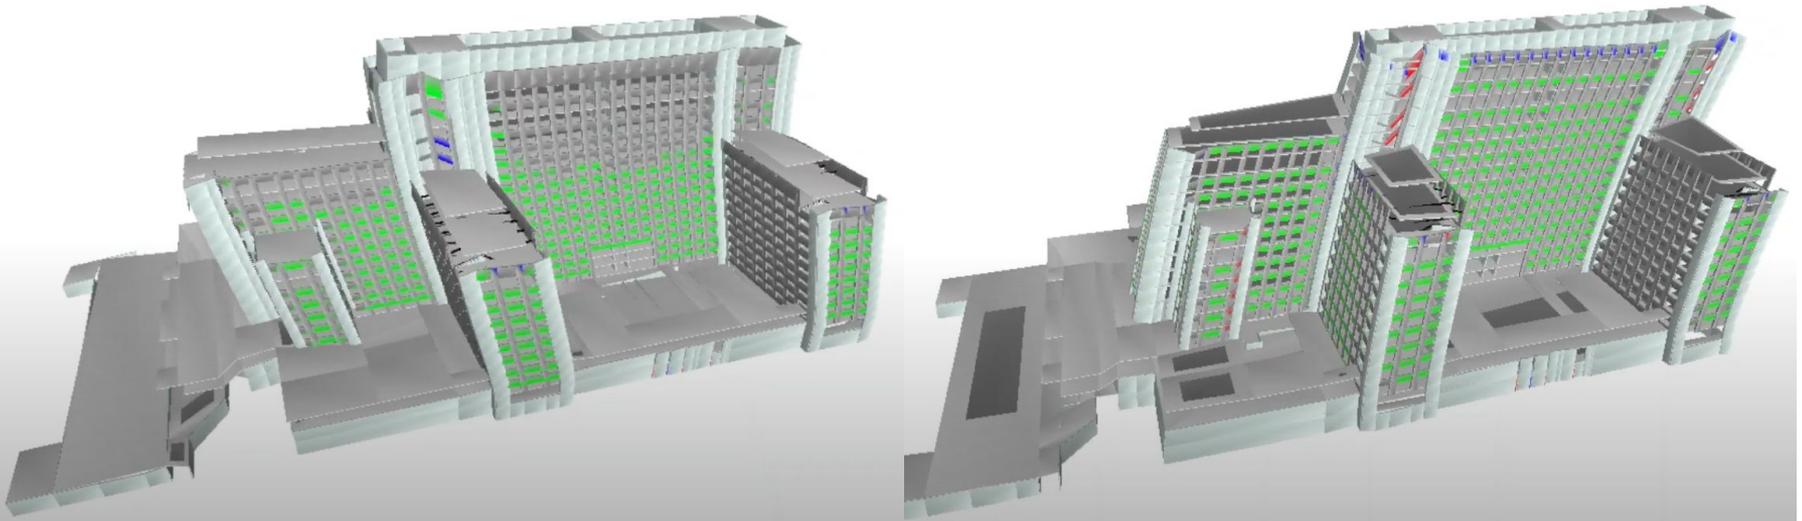

- **Stormwater Constraints** – A former seasonal creek has been replaced with underground stormwater infrastructure, impacting site hydrology.
- **Soil Contamination** – soil contamination from refrigerants and methane requires remediation.
- **Urban Heat Island Effects** – Limited tree canopy and excessive impervious surfaces contribute to heat stress, highlighting the need for native landscaping and cooling strategies.

General Hospital

TECHNICAL FINDINGS

Seismic Risk: Classified as a Risk Category III structure, future long term re-use for housing/mixed-use requires a comprehensive seismic enhancement.

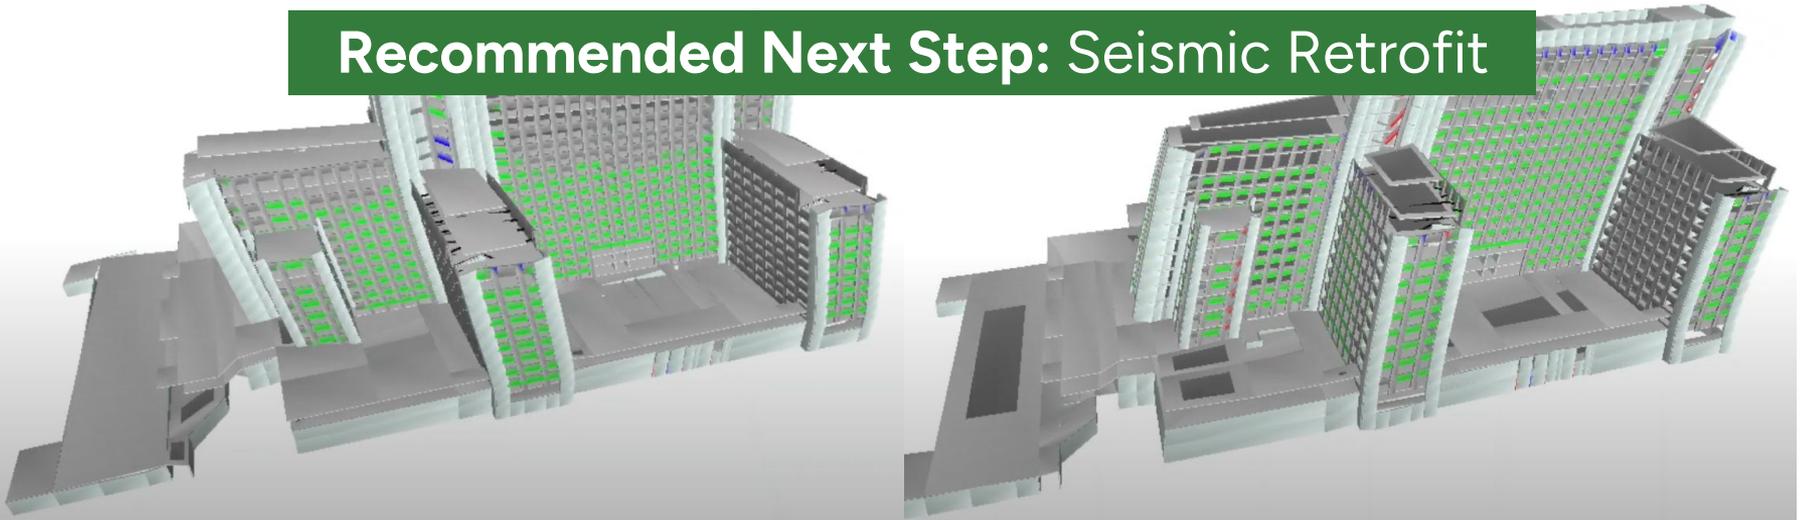

General Hospital

TECHNICAL FINDINGS

Seismic Risk: Classified as a Risk Category III structure, future long term re-use for housing/mixed-use requires a comprehensive seismic enhancement.

Recommended Next Step: Seismic Retrofit

General Hospital

TECHNICAL FINDINGS

Hazardous Materials: Asbestos and lead were found in drywall, flooring, insulation, and roofing.

General Hospital

TECHNICAL FINDINGS

Hazardous Materials: Asbestos and lead were found in drywall, flooring, insulation, and roofing.

General Hospital

TECHNICAL FINDINGS

Deteriorated Circulatory Infrastructure: Given seismic retrofitting and code updates, salvaging deteriorated wiring, ducts, pipes is more costly than full replacement.

General Hospital

Deteriorated Circulatory Infrastructure: Given seismic retrofitting and code updates, salvaging deteriorated wiring, ducts, pipes is more costly than full replacement.

Recommended Next Step: Historic-Feature
Preserving Interior Clean Out

West Campus

TECHNICAL FINDINGS

Aging Infrastructure: Site-wide utilities originate from the West Central Plant, but the plant is operating with significant capacity loss and unsafe conditions.

West Campus

TECHNICAL FINDINGS

Aging Infrastructure: Site-wide utilities originate from the West Central Plant, but the plant is operating with significant capacity loss and unsafe conditions.

Recommended Next Step: Site Infrastructure and Utility Improvements

West Campus

TECHNICAL FINDINGS

Aging Building Inventory: The site contains 22 buildings, most in need of extensive structural repairs.

West Campus

TECHNICAL FINDINGS

Aging Building Inventory: The site contains 22 buildings, most in need of extensive structural repairs.

Recommended Next Step: Selective Demolition of Compromised Buildings

West Campus

TECHNICAL FINDINGS

Hazardous Materials: Possible soil contamination from historical medical and industrial use.

West Campus

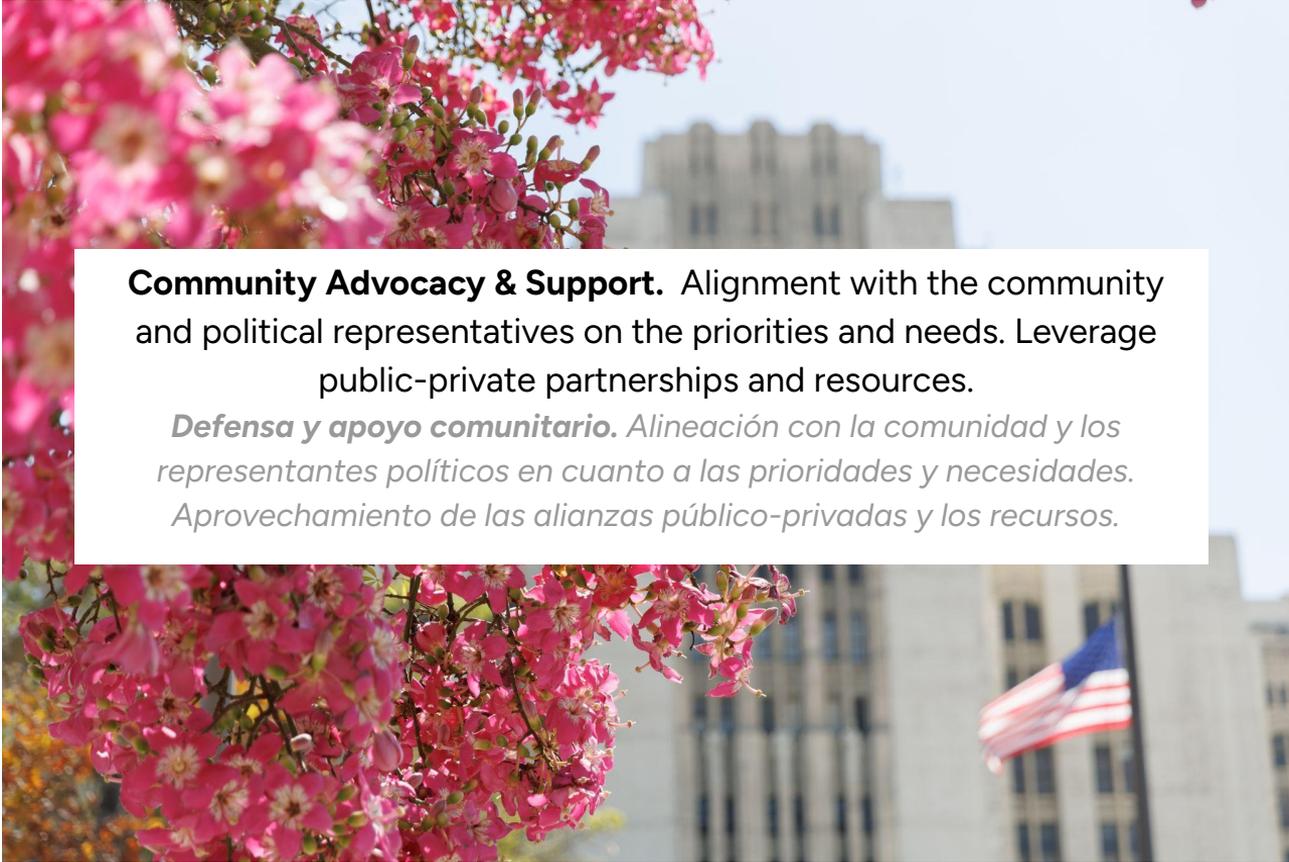

TECHNICAL FINDINGS

Hazardous Materials: Possible soil contamination from historical medical and industrial use.

What are ways we can achieve project success?

¿Cuáles son las formas en que podemos lograr el éxito del proyecto?

Community Advocacy & Support. Alignment with the community and political representatives on the priorities and needs. Leverage public-private partnerships and resources.

Defensa y apoyo comunitario. Alineación con la comunidad y los representantes políticos en cuanto a las prioridades y necesidades. Aprovechamiento de las alianzas público-privadas y los recursos.
